

Autumn Term Week 9

We are beginning a new topic this week all about India. We will be finding out about some of the places of interest and the animals that live there.

In Literacy we will be writing about the different animals.

In Maths we will be creating repeated patterns and we will be counting very carefully.

In the afternoons we will be painting our own Indian elephants. During our Science lesson we will be investigating what materials can and can't go through sieves.

The Reception children will be working with Mr Lawton, our school gardener. Each class will go out to our allotment for 2 weeks then the classes will swop. If we gardening we will not visit The Spinney that week and the class should come to school in their old clothes and wellington boots on Tuesdays instead of Mondays.

We are encouraging the children to become more independent. Please they practise putting on and taking off their coats at home. Thank you.

Please could you send in a family photograph for us to copy and display in The Grove. These will be returned to you in the CHAT book.

Dates for your diary
