

Autumn Term Week 10

We are continuing our topic all about India. We will be finding out all about the beautiful festival of Diwali.

In Literacy we will be writing about the Diwali story and describing one of the characters.

In Maths we will be creating firework shape pictures and will be carefully counting stars.

In the afternoons we will be reading and will be completing our RWI phonics assessments.

During our Science lesson we will be investigating how to make the best bubble.

We will be talking to the children about the poppies we are selling in school and what they represent. All video/radio clips that we are planning to use in Reception are age appropriate. If you would like to purchase a poppy/wrist band etc for your child please send in the donation (email was sent home with the price list earlier) in a named envelope with the choice of item written on the envelope. We are planning to add some painted stones to our memorial garden. We would like each child to bring in a stone or pebble that they have decorated at home with a poppy or that they would like to decorate in school into school next week. We will ensure home painted stones are varnished and school painted stones will be painted with waterproof paints.

We have revised our plans on working in our school allotment. Mr Lawton and a teaching assistant will take one group each Tuesday to work on the allotment. Please see the timetable below to see if your child will be gardening on a Tuesday morning. They will need to come to school in old clothes and ensure their wellies are in school. We will return to visiting The Spinney every Monday morning. We apologise for any confusion caused. Please check the timetable below to see if your child will be going to the allotment next week.

We have not had many family photos to add to our 'We are Family' display. Please if you have not sent in a photo send one or two in ASAP so we can make sure every child is represented on our display.

Dates for your diary

15.11.20 – Children in Need
