This will enable your query to be dealt with more effectively and efficiently.

Thank you

Contact via Dojo

If you have concerns about any incident in school which involves your child, please do not message class TAs through Dojo or by any other means. Please direct all queries to the class teacher.

Please do not message outside of normal office hours, as staff do not receive notifications in the evenings or at weekends.

Online Privacy

It is important to develop an understanding of how you can protect your child's privacy online. Any personal information shared online creates a digital footprint and it is vital that we control who sees what.

What are Privacy settings?

Privacy settings are tools available on most social media apps, websites, and games. They allow users to control who can view what they share online.

What can we do to support our children with their online privacy?

Talk to your child regularly: Talk to your child about what is personal information and to think about what they share online. Personal information includes their name, address, current location and the school they attend. This also includes information within photos or videos that they may share, for example does it show their current location?

Texting dictionary from Internet Matters

Internet Matters have created a list of text language terms to help you understand some of the text slang that your child might be using. Find out more here:
