

WALT: Explore and compare the differences between things that are living, dead, and things that have never been alive.

What do you think living and dead means?

WALT: Explore and compare the differences between things that are living, dead, and things that have never been alive.

K	W	L
What I know	What I would like to know	What I have learnt

If you are at home, split your page into 3 and pop KWL into each of the columns like mine above.

WALT: Explore and compare the differences between things that are living, dead, and things that have never been alive.

Do you think we are alive?

Vocabulary:

move, grow, respiration, sensitivity, reproduce, excretion and nutrition.

WALT: Explore and compare the differences between things that are living, dead, and things that have never been alive.
