

Maths - Wednesday 20th January

Use one of your tens frames and counters to help you find the answers to these calculations

e.g. $4+3 = \underline{7}$

Get 4 counters and put them on the tens frame then get 3 counters and put them on too. How many do you have altogether?

$6+2=$

$7+1=$

$4+5=$

$6+3=$

$1+6=$

$8+2=$

$2+1=$

$5+5=$

$2+7=$

$4+0=$
