

Skeleton Measurements

Today, we were presented with range of measuring tools (clock, scales, thermometer, measuring jug, ruler, tape measure) to measure the bones in our body. We discussed and decided the most appropriate equipment for the task.

I chose _____ because _____

Part of Skeleton	Where do I measure?	Measurement in cm
Cranium	Top of head to base of head	
Humerus	Shoulder to elbow	
Femur	Hip to knee	
Fibula	Knee to ankle	
Radius	Elbow to wrist	

What did I find out?
