

Maths Challenge 1 - Tuesday 2nd February 2021

You throw 2 balls. Each ball goes into a bucket.

More than one ball can go into a bucket.

The scores are on the buckets.

1. How many different scores can you get? Write the number sentence to go with the score e.g. $1+2=$
2. Can you find 2 ways to score 6?
3. What is the highest score you can get?
